The Digital Group Guide™ (DGG™)

The Digital GroupGuide™ (DGG™) is an advanced group-guiding system delivering digital clarity for up to 64 groups simultaneously, over a range of up to 50 metres.

The DGG™ gives guides complete control of the tour experience, preserving their voice while enabling both scripted and spontaneous commentary. It supports effortless management of group flow and momentum, adapting easily to varying visitor needs to enhance engagement and satisfaction.

An ideal solution for venues of any size, the Digital GroupGuide™ provides autonomy and crystal-clear communication, even in the most challenging acoustic environments.
