Mirage™ SALES SHEET

Imagineear

The Mirage™ resilient, superior, versatile

The Mirage™ comes with a superior set of specifications, providing visitors with an unforgettable multimedia experience in spectacular high definition. Features a built-in directional sound technology and intelligent proximity sensors to prevent sound leakage and reduce ambient noise in the venue.

The Mirage™ is WiFi and Bluetooth enabled and supports dynamic visual recognition, activating augmented reality or instant content playback through the integral HD camera.

The Mirage™ comes pre-loaded with Imagineear's full software suite as standard, facilitating full control of tour content, effortless upload and download, data capture and analysis capability and smart hardware management.
