

## The Sonato Adaptable, Smart and Sleek

The Sonato™ combines advanced performance with refined design to deliver an immersive multimedia experience on its high-resolution 8.7" touchscreen. The integral HD camera enables augmented reality and automatic content triggering, while the bright, anti-glare display ensures clarity in any environment.

Fully WiFi and Bluetooth® enabled, the Sonato™ offers flexible listening through speaker, wired headset, or wireless connection, adapting seamlessly to different visitor and venue requirements.

Powered by a T606 Octacore processor and Android 15, the Sonato™ provides fast, responsive operation and full compatibility with Imagineear's software suite. Pre-loaded tools enable effortless content management, data analysis, and smart hardware control for dependable, highperformance delivery.
