

# The Digital Group Guide™ (DGG™)

The Digital GroupGuide™ (DGG™) is an advanced group-guiding system delivering digital clarity for up to 64 simultaneous groups over a 50-metre range.

The DGG™ gives guides complete control, preserving their voice while enabling both scripted and spontaneous commentary.

This solution ensures effortless group management and crystal-clear communication, even in challenging acoustic environments, making it easy to adapt to visitor needs and enhance the overall experience.

## KEY FACTS

**Product Name**
Digital Group Guide™

**Dimensions**
8.5cm × 5.7cm × 1.9cm

**Weight**
80g

Imagineear

# The ideal solution for all types of venues large or small, wishing to offer discreet group-guided tours.
